HYBRID SEEDS

About Us

Incorporated in 2015, Iris Hybrid Seeds Private Limited is a prime wholesale trader of OP & Hybrid vegetable seeds, with its headquarters in Model Town, New Delhi. With an illustrious journey of nearly a decade, our company has set benchmarks for quality and innovation in the seed industry. We are actively engaged in the import, export, marketing, processing, and trade of seeds.

At Iris Hybrid Seeds, we are committed to building meaningful relationships with our clients and consistently delivering the highest quality products and services. Our top-notch quality is maintained through stringent standards and established processes—from conducting trials, screening, and development to the final product. This dedication has enabled us to capture a significant customer base and has paved the way for the company's continued growth.

Well-equipped within state-of-the-art technology, Iris Hybrid Seeds conducts extensive seed trialing and processing at our own testing station and seed processing plant. We have seen increasing demand for our products not only within India but also in key international markets, which gives us a competitive edge and makes us a preferred choice in the sector.

Furthermore, our experience in the export market has provided a deeper understanding of diverse customer demands. This led us to import international varieties best suited to our customers' requirements. Our unalloyed dedication goes into developing world-class products. The company's vision is to offer consistency, excellence in quality, and an impeccable delivery of our services to facilitate the growth of farmers and enhance their overall profitability.

VEGETABLE SEEDS

BETTER PRODUCT - MORE PRODUCTIVITY - MORE PROFIT

F1 WATERMELON HAKIM

- SEGMENT – Sugar baby
 - FRUIT SHAPE – Round in shape
 - FRUIT COLOR – Deep black
 - FRUIT WEIGHT – 6 - 8 kg
 - MATURITY – 64 - 68 days
 - SUGAR CONTENT – 11 Brix
 - TRANSPORTATION – Suitable for long transportation
- REMARKS** - Highly prolific, excellent taste.

F1 WATERMELON SHAHENSHAH

- FRUIT SHAPE – Blocky
- COLOR – Dark blackish
- FRUIT WEIGHT – 4 - 6 kg
- MATURITY – 65 - 70 days
- SUGAR CONTENT – 12 - 13 Brix
- TOLERANCE – Sucking pest & disease

REMARKS - Good for long distance transportation, very hard & flexible.

F1 WATERMELON SINGHAM

- FRUIT SHAPE – Oblong
- COLOR – Dark blackish
- FRUIT WEIGHT – 4 - 6 kg
- MATURITY – 65 - 70 days
- SUGAR CONTENT – 12 - 13 Brix
- TOLERANCE – Sucking pest & disease

REMARKS - Good for long distance transportation, very hard & flexible.

F1 WATERMELON LAL BADSHAH

- SEGMENT – Blocky
- FRUIT SHAPE – Oblong
- FRUIT COLOR – Glossy black
- FRUIT WEIGHT – 6 - 8 kg
- MATURITY – 70 - 75 days
- SUGAR CONTENT – 11 - 12 Brix

REMARKS - High yield, prolific.
